Madisonville Notes

BY AILEEN DAVIS.

Thursday Afternoon Literary Club.

Miss Davie Hendricks was the charming hostess on Thursday, March 2, at the regular meeting of the Thursday Afternoon Literary Club, which met at her home on South Main street.

The meeting proved to be a most interesting, as well as instructive one, as the program was well prepared throughout and beautifully rendered.

Mrs. William Simpson read a most excellent paper on the "Spanish-American War," which was followed by a splendid account of the "Panama Canal," by Miss Anna Garnet Tate, being a vivid and complete description of the many attempts made before anything definite was accomplished in this line of work, up to the present time.

Miss Robbie Clayton told, in her own inimitable style, a beautiful little Spanish love story, which blended so nicely with the program which preceded, that it proved to be a fitting climax for the afternoon.

At the conclusion of the program, a delightful luncheon was prettily served in two courses.

One of the Blue Stockings Club's most enjoyable meetings was held Saturday afternoon at the home of Miss Elizabeth Givens, in South Main street.

It's Ready for You.

The death chair, to be used in electrocuting condemned prisoners at the Eddyville penitentiary, is finished and has been shipped to the prison in care of a deputy warden. The chair was built at the Sherrill-Russell plant. It is of light-colored, heavy oak, substantially built, and with padded, for the arms (2) and the ankles, with a cap, all to be fitted with electrodes, complete the death dealing outfit, when properly connected with the current. The chair's appearance gives no idea of the horrible use to which it is to be put; but when visitors sat in it just "for the sensation," and felt the self-clamping hook settle down upon their limbs, and realized they couldn't move, they appreciated in a small measure the helpless agony of anticipation through which the condemned man must go for the few minutes immediately preceding his demise—Paducah Sun.

TO PROUD TO BEG

Henderson Family is Found in Chicago in Pitiable Plight.

Chicago, March, 5.—Huddled behind a high backed Colonial chair, the only piece of furniture in the home at 6323 Morgan street, the family of Joseph Barry, formerly of Henderson, Ky., was found cold and starving by neighbors. The wife, Hattie and her four small children two boys and two girls were waiting for news from the Englewood Hospital, where the husband, Joseph Barry, has been taken to be operated on. The mother and children were to weak from hunger to visit the father, and had remained in the bleak room for three days, too proud to beg assistance.

"We came from Henderson, Ky., and are related to the Barrys of Louisville," said Mrs. Barry. "It is about eighteen months since we came to Chicago."

"At first Mr. Barry was able to work. Then he became ill and we had to sell out our belongings, a little at a time. We were all sold out about a month ago, and Mr. Barry grew worse. The last money we had went for doctors and medicine. Then Joe was taken to the hospital and I have waited here ever since."

The children cried as their mother told of their "waiting," without anything to eat and nothing to keep them warm except the high backed chair used as a sort of wind-break to sleep behind at night.

After neighbors discovered the family's plight immediate relief was given to the sufferers. Reports from the Hospital state that Mr. Barry is recovering from the operation.

The line up was as follows:

Roy Blanks Arrested.

Roy Blanks was arrested at Central City Saturday by Chief of Police Langley, charged with interfering with an officer while making an arrest. Blanks is said to have interfered with City Marshal Woodward at Nortonville and caused him to release a prisoner whom he had under arrest at that place Friday. Sheriff Stanley and Deputy Williams went to Nortonville and Hopkinsville Friday night to arrest Blanks. He was found at Nortonville by Deputy Williams, but managed to make his escape by a clever ruse. After his arrest at Central City Saturday, Chief Langley telephoned the Hopkins county officers and Deputy Proctor Ashby went to Central City for the prisoner. He was brought to Madisonville Sunday and put in jail.

Kentucky May Escape Payment of Big Debt.

Washington, March, 2.—Secretary of the Treasury, MacVeagh has asked Congress to relieve the State of Kentucky of the payment of \$1,483,757.39 which the Bluegrass State has been owing the Federal government since 1836, and which, if payment were ever enforced, with accumulated interest, would bankrupt the State treasury.

During the administration of Andrew Jackson, when the treasury was full to overflowing, there was a distribution of money among the States then in existence, and Kentucky received the amount named as its portion.

A Good Man Gone.

After a short illness of pneumonia L. & N. Agent, Hardy Morton, of Morton's Gap, passed away at 5 o'clock Friday morning, his death was unexpected. He contracted a severe cold a few days ago and did not go to bed until Tuesday. Pneumonia developed and on Friday the end came. Mr. Morton was a very popular man both with the company and the people of Morton's Gap and vicinity. He was 29 years old and leaves a wife and two small children, his father M. T. Morton, a brother Oliver and a sister, Mrs. Bertha Stewart, of Morton's Gap. He was a member of the Modern Woodmen and funeral services were conducted under their auspices.

Imports and Exports of Leading Agricultural Products in 1910 Compared With 1900.

"Calendar Year Statements showing the imports and exports of the United States from 1900 to 1910," a publication just issued by the Bureau of Statistics of the Department of Commerce and Labor, shows some interesting facts regarding the imports and exports of the United States in the trade with foreign countries. Among the curious things shown is, for example, that fruits nuts imported into this great agricultural country have doubled since 1900, having grown from 19 million dollars in value, speaking in round terms, in the year 1900, to 39½ million in 1910. Fruit imports alone increased from a little less than 16 million dollars to practically 26 million. Bananas form the largest item in the group, being valued at a little less than 6 million dollars in 1900, and over 12 million in 1910.

Hides and skins also form a marked increase in the importation of the term, having increased from 307 million pounds in 1900, to 573 million in 1909, the figures of 1910 being considerable less, 461 million pounds. The value of hides and skins imported was in 1900, 51½ million dollars, and in 1910, 86 million. Goatskins form an important factor in this, having been in 1900, 19 million dollars in value, and in 1910, 27 million.

Swears Out Warrant for Officer.

Mrs. Richard Ferguson, of Nortonville, swore out a warrant Saturday for Marshal Woodward, charging him with using unnecessary violence in making the arrest of her brother, Ernie Oates, at Nortonville Friday, and then kicked him, while dragging him along to the lock up. Mr. Woodward denies the charge and was released on his own bond. The case will be tried before Judge Bradley today.

Mr. and Mrs. R. G. McEuen spent Sunday with relatives at St. Charles.

Uncle Sam is to Have Some Banking Reform.

Buffalo, N. Y., March, 6.—That the United States within the next two years will have legislation insuring a new and far-reaching scientific banking system, designed too last a century, is the prediction of Congressman Edward B. Vreeland, chairman of the Banking and Currency Committee of the House of Representatives and vice chairman of the New York Monetary Commission. Mr. Vreeland makes this prediction in a statement to the State Bankers' Association here, adding, "There is not a single doubt that we are going to have radical reform in our banking and currency system. The danger of a panic must be done away with. The people will never again submit to the suspension of payment by banks and all the suffering that such a thing entails. Our periodical panics have been more expensive in losses of money and in hardships than all the wars the country has ever known."

"Back Home" Movement a Live Theme in the West.

Johnson City, Tenn., March 6.—The following letter was received at the offices of the Carolina, Clinchfield & Ohio Ry., and given out for publication:

"Industrial Department, O. C. & O. Ry., Johnson City, Tenn.

"Gentlemen: I thought perhaps you might appreciate a short letter giving you an idea of whether your 'Back Home' movement is receiving any attention or not in the far West.

"I assure you that I hear it talked every day in the city of Seattle. There are so many people on the Pacific Coast that have experienced such bitter disappointments; they are eagerly hunting for some place to go to start life over again on a safe, conservative basis.

"The Southern States have the material wealth and need the people. Let them know it and they will come. Even Western moneyed men are watching developments in the movement. There was a man out to see me a few nights ago, having found out that I had lived in the South. I gave him such general information as I could. He is now on his way to the South to spend two or three months. His intention is to buy a large body of land and colonize it.

"Advertising has certainly made the West what it is. I will just relate one effort and the results: The Western Railroads, through R. A. Ballinger, induced the government to open up two pieces of worthless land in the state of Washington, and one in Montana, about 18 months ago, to be allotted by drawing with an appraised value of from \$2.00 to \$25.00 per acre, to be paid for by the lucky one in the drawing, of course advertised everywhere by the Western Railroads. Result 285,000 people came distances ranging from 100 to 3000 miles to register for the drawing on about 8000 claims. Fortunately, a large number of the lucky ones in the drawing got wise and did not go on their claims. Those that did are leaving them saying they are worthless.

"I could tell you of many other things with similar results but will not tax your patience further at present. I heard a man say one day this week that Horace Greely's saying—'Go West Young Man' is no more, but will be and is now—'Go South Young Man'. The dream of my life is to return to my native land, which I pray is not far in the future.

"Yours very truly,

"J. A. T. BACON."

Stomach Troubles Cured by Vinol

HERE IS PROOF

"I suffered so long from stomach trouble and indigestion, that I lost flesh rapidly—VINOL cured me after everything else had failed. It strengthened my digestive organs—gave me a hearty appetite, and I can eat anything without the slightest distress. I do not believe anything equals VINOL for stomach trouble and indigestion."

W. E. WATERHOUSE,
Portland, Me.

Mr. Thos. G. Wallace, of Detroit, Mich., writes, "I suffered for years from a chronic stomach trouble. VINOL entirely cured me after everything else had failed."

It is the curative medicinal elements of the cod's liver, combined with the strengthening properties of tonic iron contained in VINOL, which makes it so successful in restoring perfect digestion, and at the same time building up the weakened run-down system.

Try a bottle of VINOL with the understanding that your money will be returned if it does not help you.

The Poultry Yard.

The March-hatched pullets will be the early fall layers.

Many incubator chicks are killed with kindness by being overfed and kept too warm.

You need not be afraid the hens eat too many crushed shells. Let them have all they want.

Make it a rule to count the birds every day. Some folks never do this. They might be robbed and never know it.

I have heard the advice given to feed the chicks all they will eat up clean. That won't do. They will eat up clean (the first week or two) more than they have any business eating.

Hard enough to sit for three weeks, without having to be gnawed all the time by insect pests. Look at your sitting hens once in a while and be sure they are free from enemies of this kind.

You can make money by getting a good rooster right now. Mate him with some of your best hens and set the eggs. Your basket will get full a lot faster after those pullets get to laying.

Particularly at this season of the year, do not set a hen until it is positive that she is thoroughly broody. If she does not have the full fever, she is apt to desert her charge, often after sitting a week or two.

As the weather is still cold, not more than eleven eggs, should be given a hen. When a larger number is allowed the eggs are not sufficiently covered, and those on the outer edge of the clutch are likely to become chilled.—Farm Journal.

AD-TALK

What would you think of a salesman who reported for duty one day, lay off for two, worked a half day, went off for a week and so on without any regularity? Surely you would not expect good service from such a man. And yet some merchants hold advertising, which is simply a "salesman," up to great results when it is allowed to "work" very irregularly. The fact that advertising costs money is proof of its value. Things without cost are usually worth only their price.

A HOME TREATMENT FOR LUNG TROUBLE

It is a recognized fact that fresh air, plenty of nourishing food and a correct constitutional treatment have done more to cure lung trouble and that weakened run down feeling, than all other forms of treatment combined.

A constitutional treatment, to meet all the necessary requirements, must not only kill and remove all the disease germs from the system, but at the same time it must increase the appetite, aid in digestion and assimilation of food, renovate and build up the nervous system and all parts of the body.

Germinol Remedy meets all these requirements and is producing some marvelous results.
If you have consumption in any form, blood disease, if you are troubled with ulcers or chronic sores, coughs, pains in the chest, if you have weak lungs and feel generally run down and weak, write the Ohio Medical Co., Box 95, Columbus, Ohio, and they will send you a full sized bottle of this medicine absolutely free, as a trial, if you will mention the name of this paper.

Our Object in Advertising

Of course **Our Prime Object** in advertising is to **Sell More Goods. To Get More Business.**

Many citizens of Hopkins county and adjoining counties are intimately acquainted with us, and altogether familiar with our way of doing business, who, we are grateful to say, trade with us year in and year out with perfect confidence, who feel at home as soon as they open our door. Yet there are a great many just as good people who have dealt with us very little, and some who don't know we are in the world. We are anxious for every family within a radius of twenty-five miles to know, not only we are in business, but the class of merchandise we sell and our mode of dealing. To attain this coveted condition advertising is absolutely necessary, and the best way to reach **All** the people with our announcements, our trade propositions, is through our county newspaper. Hence there are few issues in which we do not have something to say.

Tell the Truth Every Time!

In preparing our advertisements we are just as careful to **Tell the Truth** as we are when conversing face to face, and all propositions made in an advertisement of ours are **True to the Letter.**

When we announce **Great Cut Prices We Give a Reason for It**, and it is **Just That Way.**

It is not because we love our fellowman, not because we are working for his good particularly, that we offer our goods at sacrificing prices.

A large percentage of our goods has to be bought from three to six months in advance of the season. We place orders in expectation of normal trade conditions; the conditions may be abnormal, resulting possibly in half the purchase being left on our hands, or at least towards the end of the season everything points that way. What are we to do? What would you do? Anything most in the way of cutting prices to transform merchandise into the **All Powerful.** And when we come to the great buying public with great sacrificing prices **We Mean Exactly What We Say and Live Squarely Up to Our Advertisement in Every Detail.**

CYRUS L. ADLER
The Piano and Organ Maker

The Nightingale of Organs

MIDDLEMEN WIPED AWAY

I've busted the hot air bubble of the dealers, agents and middlemen of this country by selling direct to the homes at the same price they formerly paid me for my organs.

SEND ME YOUR NAME

whether you want to buy or not and I'll send you free of charge and postpaid the most wonderful organ book and buying plans you ever saw. All the organ men in this country claim they make the best organ but do not give you any proof. I do, and here is the proof. I own my own timber lands, saw mills, dry kilns and factory. I do not have to pay one penny of profit for lumber or milling. The profits that other manufacturers pay to lumber and saw mills, I put into my Adler Organs. (The Nightingales of Organs). That's the reason my organ is better than any other make. Another Proof! I guarantee my organs for 50 years, whereas others guarantee theirs for 10 to 12 years. Don't this mean something? My selling plans are the fairest, simplest, safest and easiest ever placed before the American public, in that I grant my customers all the time they want, arrange their payments as it suits their income and circumstances, give them reasonable extensions of time if they can't meet their payments and charge them no interest. Ask some of your neighbors who deal with me about this. That's the best proof you can get. I would just as soon give you \$1,000 in gold if you can duplicate this proposition.

MY ORGAN (THE NIGHTINGALE OF ORGANS)

has a tone nearest to the human voice, a pure singing tone that lasts a life time and it won the highest prize at the St. Louis World's Fair, another proof my organs are the best. Everybody is buying an organ these days and everybody is buying an Adler on account of its high quality, wearing qualities, style and reputation. I am selling them for less than dealers and agents are selling cheaper grade organs and when you stop to think and realize that when you buy from one of these middlemen you must pay his profit, time, salesman's salaries, store rents and other expenses, my offer means a whole lot and stands before you as the king of money savers. My world's greatest organ factory is working day and night, grinding out the organs ordered, and this condition was brought about by the fair and liberal treatment I handed out to my customers, now numbering over 75,000. Whenever I sell an Adler, it sells a dozen more and so on indefinitely. They've stood the test and always will. Quality always wins out.

75,000 ADLER OWNERS SAVED \$2,625,000

Before I sold direct to the homes at wholesale factory prices, as I am doing now exclusively, I used to sell to dealers only, but when I found out that they sold my organs for twice and three times as much as they paid me, making the poor people bleed for it, I was thunderstruck and quit. I sent out thousands of notices telling them they couldn't buy another organ from me, that I meant to sell direct to the homes, saving them the enormous, unreasonable profits and expenses they were charging them. This came to them as a thunderbolt from a clear sky. In round numbers I've saved my customers (over 75,000 of them) at least \$2,625,000, all of which would have gone to the dealers had I sold the organs through them. You surely appreciate what this means.

NOW MY PROPOSITION TO YOU

Your Piano

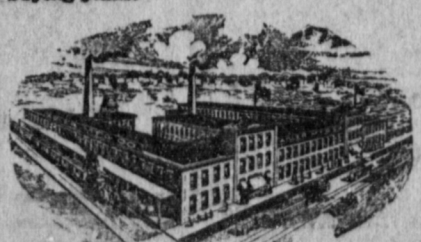

My Piano Offer—The Greatest

In tone, excellence, workmanship, material and finish they have no superior, if an equal, and I can save you \$100 to \$150. They are artistic in design, built to last a life time, have a tone as clear and pure as a bell, and a wonderful, easy, elastic touch.

The Adler Factory—Greatest in the World

50 YEAR GUARANTEE

Send your name for catalogue and buying plans. You will be under no obligation whatever. Stool and instruction book given with every organ.

ROYAL Baking Powder Economy

The manufacturers of **Royal Baking Powder** have always declined to produce a cheap baking powder at the sacrifice of quality.

Royal Baking Powder is made from pure grape cream of tartar, and is the embodiment of all the excellence possible to be attained in the highest class baking powder.

Royal Baking Powder costs only a fair price, and is more economical at its price than any other leavening agent, because of the superlative quality and absolute wholesomeness of the food it makes.

Mixtures made in imitation of baking powders, but containing alum, are frequently distributed from door to door, or given away in grocery stores. Such mixtures are dangerous to use in food. In England, France, Germany and some sections of the United States their sale is prohibited by law. Alum is a dangerous mineral acid, and all physicians condemn baking powders containing it.

The label of alum baking powders must show the ingredients.

THE END OF TUBERCULOSIS

Cows and Hogs—and Men.

By PRESIDENT TAFT.

We have an agricultural department, and we are spending \$14,000,000 or \$15,000,000 a year to tell the farmers by the results of our research how they ought to treat the soil and how they ought to treat the cattle and the horses, with a view to having good hogs and good cattle and good horses. There is nothing in the constitution especially about hogs or cattle or horses, and if out of the public treasury at Washington we can establish a department for that purpose it does not seem to be a long step or a stretch of logic to say that we have the power to spend the money in a bureau of research to tell how we can develop good men and good women. Some of our enthusiastic conservators of national resources have calculated how much the life of each man and each woman in the community is worth to that community. I do not think it necessary to resort to that financial calculation in order to justify the saving of human life, such as can be accomplished by the results of research and advice that will proceed from a properly established bureau of health.

"IN A BAD WAY"

Many an Earlington Reader Will Feel Grateful for This Information

When your back gives out; Becomes lame, weak or aching; When urinary troubles set in; Your kidneys are "in a bad way." Doan's Kidney Pills will cure you. Here is local evidence to prove it: Mrs. Francis Rutherford, Earlington, Ky., says: "For over three years I suffered from weak kidneys and dull pains through the small of my back and whenever I did any work that required lifting, sharp shooting twinges passed through my loins. My back ached at night and when I arose in the morning, I was very stiff and lame. I generally felt dull and languid and was also bothered by a feeling of nervousness. Headaches were common and I had dizzy spells, during which there was a blurring of my sight. The kidney secretions were also unnatural. Whenever I caught cold, it settled on my kidneys and at such times my suffering was aggravated. Learning of Doan's Kidney Pills, I procured a box and received relief in a short time after commencing their use. I continued taking this remedy until I had finished the contents of two boxes, at which time I was completely cured."
